Contact person (external official)	Nam THE SECRETARIAT e Forestry Development Center College of Forestry and Natural Resources University of the Philippines Los Baños Emai fored2010@uplb.edu.ph l
Website link	http://uplbcfnr.com/fored.html
Brief introduction	In general, the international conference aims to strengthen the contribution of forestry education and research to sustainable forest management in the context of the changing priorities and needs of the Asia Pacific Region. Specifically, the objectives are: - To assess the state of forestry education and research in the Asia-Pacific Region. - To identify major issues and challenges confronting the forestry education and research sectors. - To initiate the process of charting the future direction of forestry education and research. Themes are: Advancing Forestry Education and Profession Identifying and analyzing the reduction in investment for forestry education and even a declining regard for forestry professionals; Identifying education strategies

and approaches to equip forestry professionals so they can effectively and efficiently tackle their jobs in the context of changing demands and needs.

Current Developments in Forestry Research

Providing the audience with innovations in the field of forest science and technology and indigenous knowledge systems.

Forestry Education & Research Interface

Linking education and research to insure that would-be foresters are constant recipients of vital research information that they need to be more effective in the execution of their duties and functions

Forests and Climate Change

Sharing innovative ideas, strategies and experiences on why and how to integrate climate change mitigation and adaptation in forestry education and research
